

Standard Player Templates

The sections below provide information about the standard player templates available in your Delve Networks account. Visual aspects for each of these templates can be altered using the Delve Player Builder. Media content can be assigned in your Delve Networks account. Player functions and content can be further controlled or altered using Player APIs. Please see the Delve Player API Reference for more information.

Standard Video Player

This player can be configured to play a single video as well as a channel of videos. The player can be scaled to match any desired dimension, including 4:3 (default) and 16:9 aspect ratios. Colors, controls, and sizes can all be configured via the Delve Player Builder.

Default Dimensions

- Full Player: 480 x 411
- Video Screen: 480 x 360
- Controls: 480 x 51

Standard Video Player with Playlist

This player can be configured to play a channel of videos. The player can be scaled to match any desired dimension, including 4:3 and 16:9 aspect ratios. Colors, controls, and sizes for both the player and the playlist can all be configured via the Delve Player Builder. The position of the playlist (top, bottom, left, right) and the display of thumbnails can also be configured.

Default Dimensions

- Full Player and Playlist: 940 x 414
- Video Screen: 470 x 362
- Controls: 470 x 52

Tabbed Video Player

This player can be configured to play a single channel of videos as well as multiple channels of videos. The player can be scaled to match any desired dimension, including 4:3 and 16:9 aspect ratios. Colors, controls, and sizes for both the player and the playlist can all be configured via the Delve Player Builder. The position of the playlist(s) (top, bottom, left, right) and the display of thumbnails can also be configured.

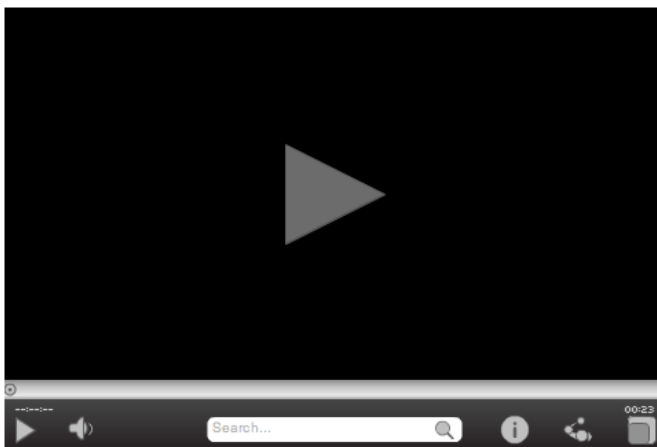

Default Dimensions

- Full Player and Playlist: 940 x 439
- Video Screen: 470 x 362
- Controls: 470 x 52

Widescreen Video Player

This player can be configured to play a single video as well as a channel of videos. The player can be scaled to match any desired dimension, including 4:3 and 16:9 (default) aspect ratios. Colors, controls, and sizes can all be configured via the Delve Player Builder.

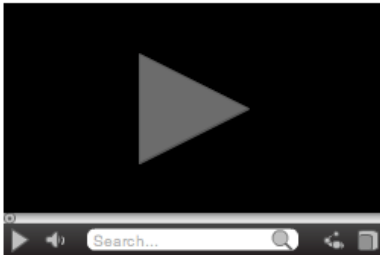

Default Dimensions

- Full Player: 480 x 321
- Video Screen: 480 x 270
- Controls: 480 x 51

Mini Video Player

This player can be configured to play a single video as well as a channel of videos. The player can be scaled to match any desired dimension, including 4:3 and 16:9 aspect ratios. Colors, controls, and sizes can all be configured via the Delve Player Builder.

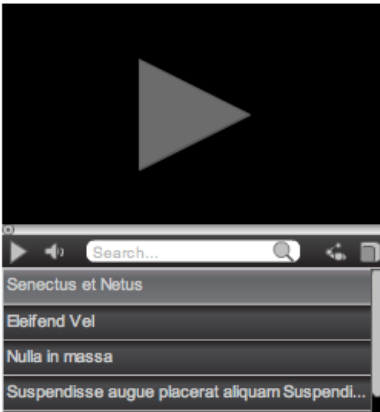

Default Dimensions

- Full Player: 249 x 166
- Video Screen: 249 x 136
- Controls: 249 x 30

Mini Player with Playlist

This player can be configured to play a channel of videos. The player can be scaled to match any desired dimension, including 4:3 and 16:9 aspect ratios. Colors, controls, and sizes for both the player and the playlist can all be configured via the Delve Player Builder. The position of the playlist (top, bottom, left, right) and the display of thumbnails can also be configured.

Default Dimensions

- Full Player and playlist: 249 x 290
- Video Screen: 249 x 136
- Controls: 249 x 30
